EDUCATION COMMUNITY FUTURESKILLING

Futureskilling involves taking on a forward-thinking mindset, skillset, and toolset to thrive in work and beyond. For Autodesk, investing in students and educators stems from understanding the deeply impactful role academia plays in the global future. Expanding access to a broad portfolio of design technology, programs, and communities empowers learners to problem-solve pressing design and engineering challenges. Going beyond simple upskilling or reskilling, futureskilling prepares designers, makers, and doers for tomorrow’s world.
